# *Towards Continual Excellence in Healthcare*

- **A. Foreword**

- I (K.S.Venkatram) think it important to first thank your organization for providing AOEC with a business opportunity to deploy and license its toolkit.
- With your organization, AOEC looks ahead to take the NEXT step, that is baseline measurement so as to deliver different tools such as a “**fit for millennium**” baseline for Quality, an **AUDIT tool** and a new VeriSafe model that helps plan for, implement continual & excellent healthcare, and also mitigate the growing anti-microbial resistance problem.
- AOEC & SSHGIEC prices its offerings based on 4 different deliverables
- 1. **Secure Your Life + Mitigating AMR** Toolkit (single license for clinics or chemists & druggists or food, animal feed & livestock businesses)
- 2. **Secure Your Life + Mitigating AMR** Toolkit + ZED Proverbial includes [QA] & Sustainable Facility Management (single license for hospitals and/or diagnostic centres)
- 3. Case study (assessments of services based on the toolkit edition)
- 4. Mobile application and Desk framework for the VeriSafe model (Work in progress)
- In case of a need for any clarification, please feel welcome to discuss the same.
